Donations Bitwise	-5,172.00
Total	<u>-5,851.36</u>
Donations (owed end 2022)	
BMT Micro	0

Summary.

Sponsoring and donations for voice were significantly lower in 2022 and reached slightly less than five thousand euros, of which 4037.50 were for the new web browser (see <https://articles.os2voice.org>). The browser which is being developed by bww bitwise works GmbH (with the help of VOICE contributions) has unfortunately been delayed by more than 6 months due to the fact that Dmitriy Kuminov is a Russian citizen who left Russia and moved to the EU. Contributions are still needed! In 2023 OS/2 VOICE will release Secure Boot support for OS/2! Note although instigated by OS/2 VOICE, this project was not funded by OS/2 VOICE, it is however published as a OS/2 VOICE project. The sources will also be released under the GPL license.
